SUMMARY

Dynamic Full Stack Web Developer with 3+ years of experience at Pangrow Tech Pvt. Ltd., specializing in scalable RESTful APIs and microservices. Proficient in Node.js and Python, I've scaled a CRM backend to 500,000+ leads processed daily, built JWT-based authentication with TOTP/HOTP multi-factor security for 20,000+ active users, and built a unified PayPal payment service for subscriptions, refunds and webhooks.

SKILLS

- Node.js
- Python
- Express.js
- NestJS
- FastAPI
- MongoDB
- React.js
- Next.js
- JWT / TOTP-HOTP MFA
- PayPal API / Webhooks
- Docker
- Redis / Celery
- Swagger / OpenAPI
- HTML5, CSS3, Bootstrap 5
- TypeScript
- Git & GitHub (Git Flow)

EXPERIENCE

- Full Stack Web Developer | Pangrow Tech Pvt. Ltd - Jaipur, India**

November 2023 – Present
- Designed and developed RESTful APIs and microservices using FastAPI, Express.js, and NestJS, ensuring high scalability and a clean, modular architecture.
 - Built and scaled a CRM backend for sales and marketing to handle 500,000+ leads daily, integrating seamlessly with 5+ external marketing platforms (Google Ads, Facebook Ads, LinkedIn Ads).
 - Implemented lead-assignment algorithms that automated distribution of 100,000+ leads per day, cutting manual lead distribution by 40%.
 - Built a JWT-based access/refresh token authentication system with TOTP/HOTP multi-factor authentication, capturing and logging login-device details to improve protection for 20,000+ active users.
 - Built a unified PayPal payment service handling subscriptions, one-time payments, refunds, voids, and webhooks.
 - Integrated MongoDB database with FastAPI using Pydantic models for efficient data handling.
 - Used Docker and FastAPI Uvicorn/Gunicorn deployment strategies for containerized microservices.
 - Worked with Redis and Celery for task queues, caching, and asynchronous background jobs.
 - Developed backend services using both Python (FastAPI) and Node.js (Express/NestJS), with TypeScript for type safety and code maintainability.
 - Integrated Swagger/OpenAPI documentation for all backend services, improving API testing and developer onboarding.
 - Managed source control and code reviews using Git and GitHub, following branching strategies (Git Flow).
- Fullstack Web Developer Intern | Grras Solutions Pvt. Ltd. - Jaipur, Rajasthan**

February 2023 – July 2023
- Worked across the stack as a frontend and backend developer using React.js, Node.js, Express.js and MongoDB.
 - Built responsive UI with HTML5, CSS3 and Bootstrap.

Off-Page SEO Executive | Gempulse Infotech Pvt. Ltd. - Jaipur, Rajasthan February 2018 – December 2022

- Online and social media data research, FB & GMB ad posting, and Google My Business analytics.

PROJECTS

- **CRM Application:** A full-featured CRM built at Pangrow Tech, scaled to 500,000+ leads/day with automated lead assignment and real-time updates for sales workflows.
- **Payment Service:** A unified PayPal payment service for subscriptions, one-time payments, refunds, voids and webhooks.
- **Horizon — Market Intelligence Platform:** Data-driven market intelligence platform delivering interactive dashboards, reports and forecasts across industries, with pages built using Next.js.
- **Hospital Database Intelligence Platform:** U.S. healthcare facility database and analytics tool giving researchers, investors, and healthcare professionals intelligence on hospital networks nationwide.
